WILL NOT RESIGN FROM CABINET

Attorney General Daugherty Outlines His Position.

ADDRESSES LETTER TO PEPPER

Declares His Elimination, Voluntary or Otherwise, Would Be a Confession of the Truth of All the Charges Made by His Adversaries. Would Plead His Case Before the Bar of Public Opinion.

Washington, Feb. 22.—In a letter addressed to Senator Pepper of Pennsylvania, Attorney General Daugherty declared he would not resign from the cabinet.

Daugherty said in his letter that his elimination, voluntary or otherwise, would be a "confession of the truth of all the baseless charges of our adversaries," and that such action would justify them in claiming "we have thereby admitted the truth." Daugherty said:

"I note with amazement your suggestion that my interests are not to be decided on the basis of justice or injustice even though my honor, reputation and all that I hold dear in this world are at stake. I am interested in your statement that I am on the wrong side of an issue in the mind of the public. I assume you have in mind the resolution of Senator Wheeler and his speech on the floor of the senate.

"You have then concluded that I am on the wrong side of an issue without hearing, without evidence, and accepted as final the baseless, scandalous and defamatory charges of my political adversaries.

"You further imply that the public has also concluded that I am on the wrong side of an issue, without evidence, on ex parte statements and baseless charges of those same adversaries. You must realize, as I do, that these charges against me, made on the eve of a presidential election, are made with other motives than that of injuring me.

"My elimination, voluntarily or otherwise, will be a confession of the truth of all these baseless charges of our adversaries and will justify them in claiming that we have thereby admitted their truth, and such admission will accomplish the ultimate end and purpose most gratifying to such adversaries. I will never be a party to such a program.

"If I am on the wrong side of the issue to which you refer, and it has already been concluded against me by the senate, to which forum I have no access, without evidence of the truth or falsity of the charges against me, and if the public has likewise, as you claim, without evidence, concluded that I am on the wrong side of such issue, then nothing remains for me to do except to plead my case before the bar of public opinion, and in order to do so accept some of the numerous invitations to make addresses throughout the country and present before that great tribunal all of the facts bearing upon these matters."

Mr. Daugherty called in William J. Burns, head of the department of justice secret service, to help him prepare a counter attack on his critics.

HAYNES ACCUSED

Charged With Inciting Dry Agents to Commit Murder.

Washington, Feb. 22.—Roy A. Haynes, federal prohibition commissioner, is accused of inciting prohibition agents to commit murder.

This was charged by the joint legislative committee of the American Federation of Labor, the Moderation League, Inc., the Association Against the Prohibition Amendment and the Constitutional League of Massachusetts in a statement here. The report says:

"The shooting of United States Senator Greene of Vermont on the streets of Washington by a federal prohibition agent calls strikingly to the attention of the people methods of enforcement that have been in practice all over the United States.

"We charge that United States Prohibition Commissioner Roy A. Haynes has incited his agents to commit murder in the enforcement of the prohibition law. His book 'Prohibition Inside Out,' which prohibition agents have been required to buy, is filled with description of gun fights in which the agents are approvingly pictured as heroes, entitled to the same public consideration for killing citizens of the United States as heroes of the battlefield."

A congressional investigation is demanded.

TELLS WEIRD TALE

Youth Admits Killing Parents In Atonement For Sacrilege.

St. Petersburg, Fla., Feb. 22.—A weird story told by Frank McDowell, 20, that he sacrificed the lives of his sisters and his parents to pay for an imaginary sacrifice of his own, was believed by authorities to be the product of a demented mind.

Mr. and Mrs. J. M. McDowell were found shot to death in their beds on the anniversary of the murder of their two daughters at Decatur, Ga. McDowell placed between the bodies a typewritten sheet, shaped like a heart, on which were such expressions as "Sin shall be washed away in the blood of the slain enemy." He failed to explain what his sin was.

Explaining the murders of his two sisters in Decatur, Ga., a year ago, McDowell said he saturated the mattress of their bed with gasoline, ignited the bedding and locked the doors of their room.

COX DEFINITELY ENTERS THE RACE

Expects Solid Delegation from His Home State.

Columbus, Feb. 22.—Admission of former Governor James M. Cox that he had authorized the use of his name as a candidate on the petitions of Democratic candidates for delegates to the national party convention places Cox definitely in the race for the Democratic nomination for president.

Robert S. Hayes, former secretary and aide to Cox, some weeks ago obtained the blank petitions for delegate candidates from the secretary of state, and these, signed in blank by Cox, giving consent to use of his name as a candidate for president, have been sent out to various districts. Persons who have received these petitions, signed by Cox, are said to have been instructed to hold them until the former governor files his formal declaration of candidacy. The name of former Governor James E. Campbell, Columbus, is given on the declarations as second choice for president, Campbell having consented to the use of his name also.

In a statement issued here Hayes, as spokesman for Cox, said that a full complement of delegates in each district and at large will be placed in the field for Cox. Hayes predicted that Cox will receive the united support of the Ohio delegation in the convention.

Killed by Dry Agent.

Ironton, O., Feb. 22.—Roy Miller, 22-year-old meat market man of this city, was shot and killed in a clash with dry agents near Ashland, Ky. Constable George Hall, 35, the officer making the attack, was severely beaten with the revolvers of Miller and companions.

Rough Signs Contract.

Cincinnati, Feb. 22.—Eddie Rush, star outfielder, is no longer a holdout. Officials of the Cincinnati club announced Rush had signed a three-year contract. He will accompany the team to the training camp in Florida.

PHIPPS ACCUSED BY ASHURST

Alleged to Have Voted to Put Money into His Own Pocket.

VERBAL EXCHANGE IN SENATE

Senator Wheeler Claims He Has Written Report Indicating That Attorney General Daugherty Had Speculated in Oil Stocks—Republican Senators Pressing For Action in the Daugherty Case.

Washington, Feb. 22.—Unless President Coolidge or Attorney General Daugherty acts soon, administration leaders told the president it would be impossible to delay senate action on the Wheeler resolution condemning Daugherty and providing for an investigation of his administration.

Senator Lodge told the president the resolution would pass by a large majority. Lodge and other leaders want to avoid its adoption if they can.

The president, it was said, indicated by questions he was reluctant to ask Daugherty's resignation, because there was no direct evidence connecting him with the oil scandal. Senator Wheeler (Dem., Mont.) announced he had received a written report from a special investigator "indicating Attorney General Daugherty had speculated in oil stocks." "I understand that the report has been placed before President Coolidge," Wheeler said. Wheeler is author of the resolution to investigate the administration of Daugherty.

Senator Ashurst (Dem., Ariz.) charged in the senate that Senator Lawrence C. Phipps (Rep., Colo.) had voted as a member of the appropriations committee "to put money into his own pocket."

The Arizona senator was protesting against the reduction by the committee from \$765,000 to \$515,000 for the Yuma irrigation project in California and Arizona. Asserting that the Southern Sierra High Power company now supplies electric current in the district, which could be served from a plant to be erected in the Yuma project, Senator Ashurst said: "One of the stockholders of this company sits on this committee. How did he vote?" "I voted to cut this item out," returned Mr. Phipps.

Senator Ashurst continued: "This irrigation project is attempting, with a fair measure of success, to control the great menace of the Colorado river. Construction is proposed which would enable them to effect savings which in six years would pay all the costs and leave the ownership of the plant in their hands, and on the committee to consider that proposition sits a senator interested in a competing power plant. I say I regret that it is so, and if I thereby violate the senate parliamentary rules I can only accept correction from the chair."

Senator Phipps said he would make a statement in his own time explaining his position. "It will be a statement I shall be proud to make on the floor of this senate," he said.

VANDERLIP REPLIES

Says He Welcomes Suit Instituted Against Him For Alleged Libel.

New York, Feb. 22.—Frank A. Vanderlip, local financier, declared here he welcomed the suit instituted against him by the publishers of the Marion (O.) Star for alleged libel.

"I welcome these court proceedings," Vanderlip said. "The courts are an effective means to bring out facts. I hope that it is the forerunner of other court proceedings. There is nothing this country needs so much at the moment as some court proceedings initiated by grand juries and pressed by incorruptible prosecuting attorneys. I am prepared to spend quite as much as has been asked for in these court proceedings in an effort to make public some of the news that the great newspapers do not see fit to print."

Louis H. Brush and Roy D. Moore, publishers of the Marion Star, brought suit for \$500,000 against Vanderlip, charging his speech of Feb. 11, in which he declared the Marion Star was purchased from President Harding at a figure twice its value, impugned not only their own character, but the character of the late president.

Thousands Face Bankruptcy.

Chicago, Feb. 22.—John D. Dyer, director of the Farm Bureau federation, in an address before the Illinois Lumber Merchants' association, declared that 400,000 farmers in this country face bankruptcy unless agricultural conditions make a speedy change for the better.

Daughter of Chairman Adams of the Republican Committee.

DOINGS IN OHIO

County Reappraisal Ordered.

Columbus, Feb. 22.—By order of the county commissioners, all property in this county will be reappraised, the work to start at once. Reappraisal was ordered after County Auditor Thatcher reported to the commissioners that the real property of each of the political subdivisions of the county is not now assessed for taxes at its true value in money. Some of the downtown property in Columbus, it was revealed, had not been reappraised for several decades.

Jones Not to Retire.

Columbus, Feb. 22.—Both John E. Harper, state director of public welfare, and J. W. Jones, superintendent of the state school for the deaf, denied that there was any truth in reports to the effect that the latter intends to resign. "I expect to remain at the school as its head until I am 70 years old, and that is six years distant," Mr. Jones said, while Director Harper added: "He is one of the state's best superintendents."

Street Railway Lease Sold.

Cincinnati, Feb. 22.—Sale of the streetcar lease by the Cincinnati Traction company to the Cincinnati Street Railway company was announced here. Purchase price of the lease is estimated at \$4,250,000. Fare is now 8½ cents, transfers free. Seven and a half-cent fare and better service are promised.

Bus Franchise Rejected.

Akron, O., Feb. 22.—City council here for the second time has turned down a bus franchise presented by Mayor D. C. Rybolt. Unless a special meeting is called no further action will be taken until the next session, Feb. 26. A 10-year franchise was rejected by council after a heated discussion. This grant would motorize the city completely.

Estate Goes to Physician.

Cincinnati, Feb. 22.—The will of Mrs. Frances C. Potter, widow of James Potter, shoe dealer, gives the residue of her \$165,000 estate to Dr. Joseph R. McCleary, who, with his wife, made their home with her for a number of years. She had no near relatives.

Trackwalker Hit.

Chillicothe, O., Feb. 22.—John Campbell, 47, trackwalker, is in a serious condition from being hit by a train. His left foot was amputated, his right foot and arm broken and his head badly cut in the accident.

Woman Fatally Burned.

Cleveland, Feb. 22.—Mrs. Anna Ruck, 83, was burned probably fatally when her clothes were ignited when she refueled a stove in her home.

Escape From Jail.

Alliance, O., Feb. 22.—Overpowering Charles Garner, jail janitor here, Harry Johnson, 22, and Joe Myers, 25, escaped from the jail.

Trainman Killed.

Dayton, O., Feb. 22.—Louis Saur, trainman of Dayton, was killed under a cut of cars at Verona.

Union Signs Up.

Cleveland, Feb. 22.—A three-year wage agreement has been signed by the asbestos workers and contractors. It provides for a sliding scale between \$1.17½ and \$1.25 an hour. This is the third building trades union to sign a three-year contract here this year, and the seventh of the 21 to renew agreements.

TAX REDUCTION HELD UNLIKELY

Prospects for This Year Poor, Say Congressional Leaders.

DISAGREEMENT IS PREDICTED

House and Senate Not Likely to Get Together on Tax Reduction Compromise That Will Be Acceptable to President Coolidge—Republican Leaders in House Hope to Change Garner Program on Income Tax.

Washington, Feb. 22.—In governmental circles here it is admitted that prospects for tax reduction this year are remote.

The Garner Democratic substitute for the Mellon tax reduction plan is almost certain to be vetoed by President Coolidge in the event it passes both houses of congress in its present form. That the house and senate will not be able to agree on a compromise acceptable to the president is another danger rising in the path of tax reduction. The president publicly condemned the Garner plan in his New York speech Feb. 1 as unworkable and "political."

House administration leaders cling to the hope that they will be able before the bill leaves the house to change the Garner program on income taxes so that it would be acceptable at the white house. Failing this, their only hope is that the senate will work out a plan that will win acceptance in the house when the bill is sent back there for concurrence in senate amendments. All these hopes are dim, however, in the face of the decisive defeats suffered thus far by administration forces.

Insurgent Republicans and Democrats united again in overruling a decision of the chair that an addition to the revenue bill, proposing a tax on undistributed profits, was not in order.

Representative Frear, author of the amendment, appealed from the decision of Representative William J. Graham, Republican of Illinois, who was presiding, and after a sharp fight won by a vote of 164 to 150.

Representative John N. Garner of Texas, leader of the Democratic tax forces, opposed the proposition, however, in debate, which then opened, declaring "we don't want to change this bill so that the president will have a reason for rejecting it on business grounds." The proposal was rejected. The house vote against the amendment was 170 to 51.

GOES TO MEXICO

Charles B. Warren Nominated by Coolidge to Be Ambassador.

Washington, Feb. 22.—President Coolidge nominated Charles B. Warren of Detroit, Mich., to be ambassador to Mexico. The United States has had no ambassador at Mexico City for years.

Warren was one of the American commissioners who a few months ago went to Mexico City to negotiate for a settlement of differences, preliminary to recognition of the Obregon government. Recognition followed these negotiations. He was previously United States ambassador to Japan.

Gas Company Upheld.

New York, Feb. 22.—The Bronx Gas and Electric company was upheld by the appellate division of the supreme court in its contention that legislation prohibiting it from charging more than \$1 per 1,000 cubic feet of gas to general consumers and 75 cents per 1,000 cubic feet to the city of New York is confiscatory. An injunction against enforcement of the statute was sustained.

HERE AND THERE

William G. McAduo formally entered the Illinois presidential preference primary as a Democratic candidate for president. The petition contained 4,971 signatures.

William Simmons, founder of the Ku Klux Klan, was sued at Atlanta, Ga., by the Kamela, the women's organization founded by Simmons, for \$25,000 damages. It is alleged Simmons failed to carry out his contract for writing rituals.

Representative Dupre of Louisiana died at Washington. He was stricken a week ago with apoplexy.

A mortgage for \$150,000,000 was filed at Charleston, W. Va., by the Virginian Power company. The mortgage was given by the Bankers' Trust company of New York and covers realty holdings of the company in Summers, Raleigh and Kanawha counties, W. Va.

INDORSE DAVIS

Dry Leaders Say There Is No Dissension in Anti-Saloon League.

Columbus, Feb. 22.—Appointment of Arthur J. Davis of Boston to succeed William H. Anderson as superintendent of the league for New York state was defended by Anti-Saloon league leaders here. The appointment was attacked by Rev. Rollin C. Everhart in resigning as editor of the New York edition of The American Issue, official dry organ. Anderson, convicted of third degree forgery, is under sentence of one to two years in Sing Sing.

Everhart, in resigning, declared in a statement that he could not remain in the editorial office with a man "who as late as Feb. 1, following the recent Anderson trial, expressed full confidence in Anderson."

Davis was appointed by Rev. Purley Baker, national superintendent of the Anti-Saloon league. Baker, who is ill at his home in Westerville, this county, said that Davis was appointed "without fear of or favor to anyone," because he was the best man available for the position. "He was appointed on his merits and record, and the Anderson matter had nothing to do with the particular selection," he said.

Dr. Howard Russell, founder of the Anti-Saloon league and its associate general superintendent, said the directors were glad Anderson resigned, and added: "There is no dissension in the league and it will go on and on, continuing its work."

COUZENS DEMANDS PROBE

Charges Corruption Exists in the Internal Revenue Bureau.

Washington, Feb. 22.—Congressional investigation of the internal revenue bureau was demanded in a resolution introduced in the senate by Senator Couzens of Michigan, Republican. Couzens charges that "corruption or opportunity for corruption" exists in the bureau and was causing a loss of millions of dollars to taxpayers. He charged the bureau with gross inefficiency. The resolution was referred to the committee on audit and control.

Shortage Alleged.

Wilkesbarre, Pa., Feb. 22.—Warrants were served on John Koloczyak, treasure of the borough of Nanticoke, alleging a shortage of \$16,800 in his accounts. The action was instigated by the American Surety company. Koloczyak, who is a prominent mine worker, has served as vice president and was acting president of District No. 1, United Mine Workers.

"I expect to remain at the school as its head until I am 70 years old, and that is six years distant," Mr. Jones said, while Director Harper added: "He is one of the state's best superintendents."

Street Railway Lease Sold.

Cincinnati, Feb. 22.—Sale of the streetcar lease by the Cincinnati Traction company to the Cincinnati Street Railway company was announced here. Purchase price of the lease is estimated at \$4,250,000. Fare is now 8½ cents, transfers free. Seven and a half-cent fare and better service are promised.

Bus Franchise Rejected.

Akron, O., Feb. 22.—City council here for the second time has turned down a bus franchise presented by Mayor D. C. Rybolt. Unless a special meeting is called no further action will be taken until the next session, Feb. 26. A 10-year franchise was rejected by council after a heated discussion. This grant would motorize the city completely.

Estate Goes to Physician.

Cincinnati, Feb. 22.—The will of Mrs. Frances C. Potter, widow of James Potter, shoe dealer, gives the residue of her \$165,000 estate to Dr. Joseph R. McCleary, who, with his wife, made their home with her for a number of years. She had no near relatives.

Trackwalker Hit.

Chillicothe, O., Feb. 22.—John Campbell, 47, trackwalker, is in a serious condition from being hit by a train. His left foot was amputated, his right foot and arm broken and his head badly cut in the accident.

Woman Fatally Burned.

Cleveland, Feb. 22.—Mrs. Anna Ruck, 83, was burned probably fatally when her clothes were ignited when she refueled a stove in her home.

Escape From Jail.

Alliance, O., Feb. 22.—Overpowering Charles Garner, jail janitor here, Harry Johnson, 22, and Joe Myers, 25, escaped from the jail.

Trainman Killed.

Dayton, O., Feb. 22.—Louis Saur, trainman of Dayton, was killed under a cut of cars at Verona.

Union Signs Up.

Cleveland, Feb. 22.—A three-year wage agreement has been signed by the asbestos workers and contractors. It provides for a sliding scale between \$1.17½ and \$1.25 an hour. This is the third building trades union to sign a three-year contract here this year, and the seventh of the 21 to renew agreements.

TAX REDUCTION HELD UNLIKELY

Prospects for This Year Poor, Say Congressional Leaders.

DISAGREEMENT IS PREDICTED

House and Senate Not Likely to Get Together on Tax Reduction Compromise That Will Be Acceptable to President Coolidge—Republican Leaders in House Hope to Change Garner Program on Income Tax.

Washington, Feb. 22.—In governmental circles here it is admitted that prospects for tax reduction this year are remote.

The Garner Democratic substitute for the Mellon tax reduction plan is almost certain to be vetoed by President Coolidge in the event it passes both houses of congress in its present form. That the house and senate will not be able to agree on a compromise acceptable to the president is another danger rising in the path of tax reduction. The president publicly condemned the Garner plan in his New York speech Feb. 1 as unworkable and "political."

House administration leaders cling to the hope that they will be able before the bill leaves the house to change the Garner program on income taxes so that it would be acceptable at the white house. Failing this, their only hope is that the senate will work out a plan that will win acceptance in the house when the bill is sent back there for concurrence in senate amendments. All these hopes are dim, however, in the face of the decisive defeats suffered thus far by administration forces.

Insurgent Republicans and Democrats united again in overruling a decision of the chair that an addition to the revenue bill, proposing a tax on undistributed profits, was not in order.

Representative Frear, author of the amendment, appealed from the decision of Representative William J. Graham, Republican of Illinois, who was presiding, and after a sharp fight won by a vote of 164 to 150.

Representative John N. Garner of Texas, leader of the Democratic tax forces, opposed the proposition, however, in debate, which then opened, declaring "we don't want to change this bill so that the president will have a reason for rejecting it on business grounds." The proposal was rejected. The house vote against the amendment was 170 to 51.

GOES TO MEXICO

Charles B. Warren Nominated by Coolidge to Be Ambassador.

Washington, Feb. 22.—President Coolidge nominated Charles B. Warren of Detroit, Mich., to be ambassador to Mexico. The United States has had no ambassador at Mexico City for years.

Warren was one of the American commissioners who a few months ago went to Mexico City to negotiate for a settlement of differences, preliminary to recognition of the Obregon government. Recognition followed these negotiations. He was previously United States ambassador to Japan.

Gas Company Upheld.

New York, Feb. 22.—The Bronx Gas and Electric company was upheld by the appellate division of the supreme court in its contention that legislation prohibiting it from charging more than \$1 per 1,000 cubic feet of gas to general consumers and 75 cents per 1,000 cubic feet to the city of New York is confiscatory. An injunction against enforcement of the statute was sustained.

HERE AND THERE

William G. McAdoo formally entered the Illinois presidential preferential primary as a Democratic candidate for president. The petition contained 4,971 signatures.

William Simmons, founder of the Ku Klux Klan, was sued at Atlanta, Ga., by the Kamella, the women's organization founded by Simmons, for \$25,000 damages. It is alleged Simmons failed to carry out his contract for writing rituals.

Representative Dupre of Louisiana died at Washington. He was stricken a week ago with apoplexy.

A mortgage for \$150,000,000 was filed at Charleston, W. Va., by the Virginian Power company. The mortgage was given by the Bankers' Trust company of New York and covers realty holdings of the company in Summers, Raleigh and Kanawha counties, W. Va.

INDORSE DAVIS

Dry Leaders Say There Is No Dissension In Anti-Saloon League.

Columbus, Feb. 22.—Appointment of Arthur J. Davis of Boston to succeed William H. Anderson as superintendent of the league for New York state was defended by Anti-Saloon league leaders here. The appointment was attacked by Rev. Rollin C. Everhart in resigning as editor of the New York edition of The American Issue, official dry organ. Anderson, convicted of third degree forgery, is under sentence of one to two years in Sing Sing.

Everhart, in resigning, declared in a statement that he could not remain in the editorial office with a man "who as late as Feb. 1, following the recent Anderson trial, expressed full confidence in Anderson."

Davis was appointed by Rev. Purley Baker, national superintendent of the Anti-Saloon league. Baker, who is ill at his home in Westerville, this county, said that Davis was appointed "without fear of or favor to anyone," because he was the best man available for the position. "He was appointed on his merits and record, and the Anderson matter had nothing to do with the particular selection," he said.

Dr. Howard Russell, founder of the Anti-Saloon league and its associate general superintendent, said the directors were glad Anderson resigned, and added: "There is no dissension in the league and it will go on and on, continuing its work."

COUZENS DEMANDS PROBE

Charges Corruption Exists In the Internal Revenue Bureau.

Washington, Feb. 22.—Congressional investigation of the internal revenue bureau was demanded in a resolution introduced in the senate by Senator Couzens of Michigan, Republican. Couzens charges that "corruption or opportunity for corruption" exists in the bureau and was causing a loss of millions of dollars to taxpayers. He charged the bureau with gross inefficiency. The resolution was referred to the committee on audit and control.

Shortage Alleged.

Wilkesbarre, Pa., Feb. 22.—Warrants were served on John Kolocznyk, treasurer of the borough of Nanticoke, alleging a shortage of \$16,800 in his accounts. The action was instigated by the American Surety company. Kolocznyk, who is a prominent mine worker, has served as vice president and was acting president of District No. 1, United Mine Workers.

No Venomous Snakes on the Isle of Pines

There are no venomous reptiles or insects on the Isle of Pines. There are four varieties of the smaller snakes. The most formidable reptile is the maja—a constrictor. One of the largest known specimens perhaps is the one killed near Nueva Gerona some years ago in a manger while enjoying his elata after having dined upon a breeding hen and her eggs.

It measured twelve feet in length and was approximately six inches in diameter except through the part distended by the hen. Its skin, cured, looked like the souvenir of some heroic encounter, but the truth is that the noncombative nature of the maja is so ridiculously at variance with his dreadful aspect that his name is applied as a term of contempt to blunders and swaggers. Dr. Luz Hernandez in his book, "The Salubrity of the Isle of Pines," recommends the white meat of the maja to his patients.

The lacertilla are represented by a few harmless lizards, a plenty of pretty chameleons and a variety of the iguanas, rarely seen, whose flesh is esteemed as a food. Specimens have been found three feet in length, but its innocuous nature is evident from the fact that it makes a very well-behaved family pet.

Natural Supposition.

The girls employ such a redundancy of nomenclature in describing their garments, such as slip-over nightgowns, for instance, that if they ever really should come to our style of dress we suppose they'd call 'em step-in pants.—Ohio State Journal.

The modern sunflower was formerly called solifera, the sun follower. In those days the marigold was called the sunflower.

A Safe Place.
Probably the best way for a man to hide his money from his wife is to conceal it in a sock that needs darning.—Dallas News.

Peculiarities of Poultry.
The foraging habit of domestic poultry illustrates some of the differences observed in the manners of wild birds. Place a brood of ducks in a field and they will generally pursue one course, marching in a body over the field with great regularity. A brook of chickens, on the contrary, will scatter, occasionally reassembling, but never keeping close together unless they are following a hen. Turkeys scatter themselves less than chickens, but do not equal ducks in the regularity of their movements.

Down to the middle of the Victorian era it was considered quite the proper thing in England for a man to exchange kisses with his fair partner at the end of a dance.

The Sunflower.
The modern sunflower was formerly called solomon, the sun follower. In those days the margold was called the sunflower.

A Safe Place.
Probably the best way for a man to hide his money from his wife is to conceal it in a sock that needs darning.—Dallas News.

Penetration of Poultry.
The foraging habit of domestic poultry illustrates some of the differences observed in the manners of wild birds. Place a brood of ducks in a field and they will generally pursue one course, marching in a body over the field with great regularity. A brood of chickens, on the contrary, will scatter, occasionally reassembling, but never keeping close together unless they are following a hen. Turkeys scatter themselves less than chickens, but do not equal ducks in the regularity of their movements.

Kissing Once Custom at Spanes.
Down to the middle of the Victorian era it was considered quite the proper thing in England for a man to exchange kisses with his fair partner at the end of a dance.

Lines to Be Remembered.

DEAR OLD FOLKS BACK HOME
When the firelight shadows restless
play and flicker on the wall,
And the cricket 'neath the hearthstone
sends its solitary call,
And the wind moans down the chimney
and sighs around the eaves,
A-plucking from the treetops the few
remaining leaves,
Then visions come a-trooping by, fast
thru the gathering gloam,
Visions of days back yonder with the
dear old folks at home—
When we'd heap the fire with cord-
wood and gather round it there,
Too many of us youngsters for each
to have a chair.

So cross-legged, in a circle, we group-
ed upon the floor,
While mother chucked up carefully the
crack beneath the door;
Then in and out at her knitting her
fingers swiftly flew,
And she smiled in sweet contentment
as the stocking slowly grew.
And while within the firelight the
needles flashed and gleamed,
We at our simple duties sang and
childishly we dreamed;
And among the dying embers artistically
we drew
Bright pictures, never twice the same,
but ever changed and new.

It mattered not the wind beat hard
the door with winter rain,
Or knocked with reckless fingers the
small old-fashioned pane,
We cuddled up the closer, and moved
nearer to the fire,
And stirred the ashes out and heaped
the burning blaze the higher.
And then for some short minutes we
watched with mirthful care,
And dodged revengeful sparks the
cordwood snapped thru air;
The heat high scorched our faces, but
from the window cracks
The frost shot creeping chills all up
and down our backs.

There's many an hour since then slept
on and many a day sped by,
And many a cloud that passing swept
its shadows o'er the sky;
And no one from that circle now
gathers in that place—
The glow from th' burning cordwood
lights up a stranger's face.

Only the memories now are left of
those days when as a child
We listened to the chimney-wind a-
moaning fierce and wild,
And heard the weather prophecy of
the little sputtering flame,
As it burned in blue, then died in
smoke, then played the hiding
game.

Now when the shadows restless play
and flicker on the wall,
I hark again as the cricket sends its
solitary call,
And hear those youthful voices as with
song they fill the place,
No other accompaniment but father's
heavy bass;
And, as down the winding path of
years I lonely roam,
I feel the hand in blessing of the dear
old folks back home.
—Winnie Stewart.

GREAT RECORD

Ton Litter Contest Has 242 Entrants
From 38 Counties.

Ohio's 1923 record of 45 tons of
pork from 40 sows, made in the first
year of the Ohio Ton-Litter club, bids
fair to be topped this year, if entries
are the criterion.

Willing to demonstrate the belief
the high production is more profit-
able than scanty production, 242 Ohio
farmers in 38 counties have agreed to
try to produce this year a ton of pork
from a litter of pigs in 180 days. All
litters reaching this production, which
is far above the state average, qualify
the owner for membership in the
honorary organization, the Ohio Ton-
Litter club.

Last year 201 Ohioans in 27 counties
entered litters in an attempt to qual-
ify for the state club. Of these 201
men, just 34 qualified with 39 ton-
litters.

Fayette county leads this year in
the number of entries with 18. Wil-
liams and Miami have 16 entries each.
Highland is next with 15, and the rest
of the 38 counties having entrants
are:

Butler, 14; Ross, 14; Madison, 13;
Clinton, 11; Darke, 11; Montgomery,
11; Fairfield, 10; Defiance, 8; Frank-
lin, 8; Pickaway, 7; Pike, 6; Warren
6; Jackson, 5; Richland, 5; Clark, 4;
Greene, 4; Seneca, 4; Perry, 4;
Gallia, 3; Logan, 3; Putnam, 3;
Wyandott, 3; Allen, 2; Auglaize, 2;
Brown, 2; Carroll, 2; Hocking, 2;
Paulding, 2. Fulton, Hamilton, Jeffer-
son, Knox, Marion and Morrow coun-
ties enrolled one apiece.

Hotel Stenographer
BY ROE FULKERSON

"Not for me,"
cried the Hotel
Stenographer. "I
will never go out
with that bird."
"No?" questioned
the House Detective.
"Nix," said the
girl. "I am done with
scoff laws."
"Which?" he inquired.
"Kelly, I am surprised that you do
not keep up your education. That is
a new one. A guy up in Quincy,
Massachusetts, offered a prize for a
title for the chap who puts the quart
before the hearse, and hurried from
hither to yon by the bootleg route.
"A lot of titles besides 'boob' were
suggested, but the one selected was
'scofflaw.'"
"The man who invented it got \$200
for it, and now all it lacks of being a
word is a place in all the dictionaries.
"There are lots of scofflaws, Kelly,
so the adoption of the word into the
United States language is largely a
question of whether the scofflaws like
it.
"Personally, I am too young, and
beautiful to die. When I get killed, it
is going to be by something from the
outside, and not because I wood-alco-
holyed myself to death. There are a
lot of things I want to see yet, and
nobody is going to blind me with
hooch before I see 'em."

New Anesthetic Announced.
Paris, Feb. 22.—Three hours of
anesthesia, two hours of sleep, the
miracle of childbirth painlessly ac-
complished meanwhile, is the promise
for mothers of the future held out
by two French physicians, Dr. Perils
and Dr. Cleis. Successful experiments
with the newly discovered anesthetic
known as di-ethyl-di-allyl-barburate
of diethyl-amine were conducted in 17
instances. The doctors, after inject-
ing the anesthetic into the veins of
the mother, observed instantaneous
sleep.

Dry Enforcement Hit.
Chicago, Feb. 22.—Prohibition en-
forcement received another blow here
when the courts ruled that the city
could not license and control "soft
drink" parlors. As a result more
than 5,000 coffee houses and soft
drink places, in reality saloons, will
open up, selling beer. Mayor Dever,
who placed all saloons under the li-
cense law and then closed them up
by withdrawing their permits, said
he will continue his fight to make
Chicago dry.

British Dock Strike Settled.
London, Feb. 22.—The British dock
strike has been settled, and the set-
tlement is hailed as a victory for the
generalship of Premier Ramsay Mac-
Donald. Work will be resumed when
the workers' delegates accept terms
agreed to by their leaders as a re-
sult of intervention by the labor gov-
ernment. After secret conferences,
the employers agreed to the men's
demand for two shillings a day in-
crease.

Important News.
Jack's little playmate, Ben, was
called home to God, so Jack was told
when Ben died. A few nights later
when Jack was saying his prayers his
mother heard, "And please, God tell
Bennie that one of his rabbits died to-
day."

Travel of the Potato.
It is believed that potatoes were
first grown in South America and that
the Spaniards took them back to Eu-
rope when they overran Peru. Potatoes
were later introduced to Italy,
France, England, Ireland and to
North America, in the order named.

GOOD ROADS
DESIRABLE

Interested Parties Held Good Meet-
ing at Court House Thursday.

Call Issued by County Highway Com-
missioner Griner and Addresses
Made by Prosecuting Attorney Ter-
williger and R. L. Brehmer.

A number of township trustees met
at the court house Thursday after-
noon pursuant to the call sent out by
County Highway Commissioner Harry
G. Griner.

Twenty-nine township trustees were
present in all and a number of other
persons, business men and members
of the different civic bodies of the
town, were also present.

Mr. Griner presided and addresses
were made by Prosecuting Attorney
Meeker Terwilliger, R. L. Brehmer,
president of the Rotary club and G.
F. Rudisill, representing the Ohio
Good Roads federation.

L. R. Coulter, representing the Aus-
tin-Western Road Machinery company
of Columbus, presented two reels of
moving pictures showing good and
bad roads and the machinery in mo-
tion constructing roads. The movie
was very interesting and showed what
can be done by using good road ma-
chinery and common sense in the mak-
ing and upkeep of roads.

Mr. Terwilliger told the assemblage
of township road supervisors what
they could do according to law and
told them also that if labor was
scarce that they could employ them-
selves, but they could not according
to law draw more than \$2.50 a day.

"You are county officers and have
authority and it is up to you to exer-
cise it, so get busy and go to work.
If a fellow comes along and wants to
sell you a piece of machinery for road
use tell him, no matter how badly
your township needs it, that you will
call a meeting of the board and take
his offer under consideration. At no
time sign your name on the dotted
line of a contract without taking the
matter up with the other two trustees.
That's why three are elected, to con-
sult with one another as to the best
mode of keeping up the highway and
it's your duty to meet with the other
two trustees. Whenever a question of
making purchases comes up, take the
matter under consideration and decide.
You will surely get your foot in it,
if you allow a machine agent to pull
the wool over your eyes and get you
to sign a contract without taking the
other two trustees into consideration,
so be on your guard and do the job
legally.

"It is not your business to contract
township ditches. This is the work
of the township ditch supervisor, who
is appointed for this work by the coun-
ty commissioners. It is your busi-
ness to keep the roads clear of weeds
and brush in the good old summer
time, and if you can't find a man, hire
your own services at \$2.50 per day."

Mr. Rudisill spoke of the Green
law which enables counties to get
some assistance to repair roads from
the state, when the pocketbook of the
county is at low ebb. This county has
not availed itself of this new law and
only about two-thirds of the counties
in the state have so far asked for as-
sistance. Mr. Rudisill recited a very
pretty poem about mud. He called it
"The Unimproved Highway" to give it
a more euphonious name.

He said that the state has 84,497
miles of roadway; of this amount
10,500 belongs to the state system
and 74,000 to the people. It is up to
you to maintain the latter and great
improvement has been made in the
past few years by counties but there
is need of still greater improvement,
and by getting in such meetings like
this, you can get ideas that are valu-
able for road building.

Mr. Brehmer who represented the
chamber of commerce, the Rotary club
and Henry Ford said that the town-
ship trustee of today is a great im-
provement over the same official of
years gone by. Today he is up-to-date
and does his best to get the road in
his neighborhood improved on the
least possible amount of money out-
lay. It is true he hasn't an over
amount of money for the work, but he
is doing his best. Mr. Brehmer was
elected chairman of the local division
of the Ohio Good Roads federation
and in accepting the job he asked for
assistance from the township road su-
pervisors to name the balance of the
committee. He said that he would do
everything in his power to be of some
assistance to township trustees when-
ever called upon.

WORTHY CAUSE

Governor Donahey Asks Help for Starv-
ing German Children.

In a open letter addressed to citi-
zens of Ohio written at the request of
General Chauncey B. Baker, Governor
Vic Donahey said, "Multitudes of Ger-
man and children of Germany are in
starving condition with America their
only hope.

"When the cry of hungry children
is involved, no people of any race will
look to our country in vain. Coming,
as it does now, from Germany, it
should make an especial appeal to us.
Citizens of German blood have con-
tributed so much to the stability and
greatness of Ohio that the excellence
and worthiness of that race has been
empressed upon us.

"The people of Germany are reap-
ing the fruit of an unfortunate, im-
perial government, which they have
overthrown. They are now in the
period of adjustment which, we hope,
will result in the working out of a free
government so essential to the pros-
perity and happiness of any nation.

"I am sure the people of Ohio will
contribute gladly, according to their
means to save the children of a sis-
ter civilized nation."

DEAR OLD FOLKS BACK HOME

When the firelight shadows restless play and flicker on the wall,
And the cricket 'neath the hearthstone sends its solitary call,
And the wind moans down the chimney and sighs around the eaves,
A-plucking from the treetops the few remaining leaves.

Then visions come a-trooping by, fast thru the gathering gloam,
Visions of days back yonder with the dear old folks at home—
When we'd heap the fire with cordwood and gather round it there,
Too many of us youngsters for each to have a chair.

So cross-legged, in a circle, we grouped upon the floor,
While mother chuckled up carefully the crack beneath the door;
Then in and out at her knitting her fingers swiftly flew,
And she smiled in sweet contentment as the stocking slowly grew.
And while within the firelight the needles flashed and gleamed,
We at our simple duties sang and childishly we dreamed;
And among the dying embers artistically we drew
Bright pictures, never twice the same, but ever changed and new.

It mattered not the wind beat hard the door with winter rain,
Or knocked with reckless fingers the small old-fashioned pane,
We cuddled up the closer, and moved nearer to the fire,
And stirred the ashes out and heaped the burning blaze the higher.
And then for some short minutes we watched with mirthful care,
And dodged revengeful sparks the cordwood snapped thru air;
The heat high scorched our faces, but from the window cracks
The frost shot creeping chills all up and down our backs.

There's many an hour since then slept on and many a day sped by,
And many a cloud that passing swept its shadows o'er the sky;
And no one from that circle now gathers in that place—
The glow from th' burning cordwood lights up a stranger's face.

Only the memories now are left of those days when as a child
We listened to the chimney-wind a-moaning fierce and wild,
And heard the weather prophecy of the little sputtering flame,
As it burned in blue, then died in smoke, then played the hiding game.

Now when the shadows restless play and flicker on the wall,
I hark again as the cricket sends its solitary call,
And hear those youthful voices as with song they fill the place,
No other accompaniment but father's heavy bass;
And, as down the winding path of years I lonely roam,
I feel the hand in blessing of the dear old folks back home.
—Winnie Stewart.

GREAT RECORD

Ton Litter Contest Has 242 Entrants From 38 Counties.

Ohio's 1923 record of 45 tons of pork from 40 sows, made in the first year of the Ohio Ton-Litter club, bids fair to be topped this year, if entries are the criterion.

Willing to demonstrate the belief the high production is more profitable than scanty production, 242 Ohio farmers in 38 counties have agreed to try to produce this year a ton of pork from a litter of pigs in 180 days. All litters reaching this production, which is far above the state average, quality the owner for membership in the honorary organization, the Ohio Ton-Litter club.

Last year 201 Ohioans in 27 counties entered litters in an attempt to qualify for the state club. Of these 201 men, just 34 qualified with 39 ton-litters.

Fayette county leads this year in the number of entries with 18. Williams and Miami have 16 entries each. Highland is next with 15, and the rest of the 38 counties having entrants are:

Butler, 14; Ross, 14; Madison, 13; Clinton, 11; Darke, 11; Montgomery, 11; Fairfield, 10; Defiance, 8; Franklin, 8; Pickaway, 7; Pike, 6; Warren, 6; Jackson, 5; Richland, 5; Clark, 4; Greene, 4; Seneca, 4; Perry, 4; Gallia, 3; Logan, 3; Putnam, 3; Wyandott, 3; Allen, 2; Auglaize, 2; Brown, 2; Carroll, 2; Hocking, 2; Paulding, 2. Fulton, Hamilton, Jefferson, Knox, Marion and Morrow counties enrolled one apiece.

Hotel Stenographer
BY ROE FULKERSON

"Not for me," cried the Hotel Stenographer. "I will never go out with that bird." "No?" questioned the House Detective. "Nix," said the girl. "I am done with scuff laws." "Which?" he inquired.

"Kelly, I am surprised that you do not keep up your education. That is a new one. A guy up in Quincy, Massachusetts, offered a prize for a title for the chap who puts the quart before the hearse, and hurries from hither to yon by the bootleg route. 'A lot of titles besides 'boob' were suggested, but the one selected was 'scofflaw.'"

"The man who invented it got \$200 for it, and now all it lacks of being a word is a place in all the dictionaries."

"There are lots of scofflaws, Kelly, so the adoption of the word into the United States language is largely a question of whether the scofflaws like it."

"Personally, I am too young, and beautiful to die. When I get killed, it is going to be by something from the outside, and not because I wood-alcoholized myself to death. There are a lot of things I want to see yet, and nobody is going to blind me with hootch before I see 'em.'"

New Anesthetic Announced.
Paris, Feb. 22.—Three hours of anesthesia, two hours of sleep, the miracle of childbirth painlessly accomplished meanwhile, is the promise for mothers of the future held out by two French physicians, Dr. Perils and Dr. Cleis. Successful experiments with the newly discovered anesthetic known as di-ethyl-di-allyl-barbarkurate of diethyl-amine were conducted in 17 instances. The doctors, after injecting the anesthetic into the veins of the mother, observed instantaneous sleep.

Dry Enforcement Hit.
Chicago, Feb. 22.—Prohibition enforcement received another blow here when the courts ruled that the city could not license and control "soft drink" parlors. As a result more than 5,000 coffee houses and soft drink places, in reality saloons, will open up, selling beer. Mayor Dever, who placed all saloons under the license law and then closed them up by withdrawing their permits, said he will continue his fight to make Chicago dry.

British Dock Strike Settled.
London, Feb. 22.—The British dock strike has been settled, and the settlement is hailed as a victory for the generalship of Premier Ramsay MacDonald. Work will be resumed when the workers' delegates accept terms agreed to by their leaders as a result of intervention by the labor government. After secret conferences, the employers agreed to the men's demand for two shillings a day increase.

GOOD ROADS**DESIRABLE**

Interested Parties Held Good Meeting at Court House Thursday.

Call issued by County Highway Commissioner Griner and Addresses Made by Prosecuting Attorney Terwilliger and R. L. Brehmer.

A number of township trustees met at the court house Thursday afternoon pursuant to the call sent out by County Highway Commissioner Harry G. Griner.

Twenty-nine township trustees were present in all and a number of other persons, business men and members of the different civic bodies of the town, were also present.

Mr. Griner presided and addresses were made by Prosecuting Attorney Meeker Terwilliger, R. L. Brehmer, president of the Rotary club and G. F. Rudisill, representing the Ohio Good Roads federation.

L. R. Coulter, representing the Austin-Western Road Machinery company of Columbus, presented two reels of moving pictures showing good and bad roads and the machinery in motion constructing roads. The movie was very interesting and showed what can be done by using good road machinery and common sense in the making and upkeep of roads.

Mr. Terwilliger told the assemblage of township road supervisors what they could do according to law and told them also that if labor was scarce that they could employ themselves, but they could not according to law draw more than \$2.50 a day.

"You are county officers and have authority and it is up to you to exercise it, so get busy and go to work. If a fellow comes along and wants to sell you a piece of machinery for road use tell him, no matter how badly your township needs it, that you will call a meeting of the board and take his offer under consideration. At no time sign your name on the dotted line of a contract without taking the matter up with the other two trustees. That's why three are elected, to consult with one another as to the best mode of keeping up the highway and it's your duty to meet with the other two trustees. Whenever a question of making purchases comes up, take the matter under consideration and decide. You will surely get your foot in it, if you allow a machine agent to pull the wool over your eyes and get you to sign a contract without taking the other two trustees into consideration, so be on your guard and do the job legally."

"It is not your business to contract township ditches. This is the work of the township ditch supervisor, who is appointed for this work by the county commissioners. It is your business to keep the roads clear of weeds and brush in the good old summer time, and if you can't find a man, hire your own services at \$2.50 per day."

Mr. Rudisill spoke of the Green law which enables counties to get some assistance to repair roads from the state, when the pocketbook of the county is at low ebb. This county has not availed itself of this new law and only about two-thirds of the counties in the state have so far asked for assistance. Mr. Rudisill recited a very pretty poem about mud. He called it "The Unimproved Highway" to give it a more euphonious name.

He said that the state has 84,497 miles of roadway; of this amount 10,500 belongs to the state system and 74,000 to the people. It is up to you to maintain the latter and great improvement has been made in the past few years by counties but there is need of still greater improvement, and by getting in such meetings like this, you can get ideas that are valuable for road building.

Mr. Brehmer who represented the chamber of commerce, the Rotary club and Henry Ford said that the township trustee of today is a great improvement over the same official of years gone by. Today he is up-to-date and does his best to get the road in his neighborhood improved on the least possible amount of money outlay. It is true he hasn't an over amount of money for the work, but he is doing his best. Mr. Brehmer was elected chairman of the local division of the Ohio Good Roads federation and in accepting the job he asked for assistance from the township road supervisors to name the balance of the committee. He said that he would do everything in his power to be of some assistance to township trustees whenever called upon.

GAY SESSION
Lutheran Brotherhood Staged a Good Vaudeville Thursday Evening.
The Lutheran Brotherhood held a gay session Thursday evening in the social rooms of the church, but the boys had to be on their good behavior as they were host to the ladies.
Frank Mason catered to the wants of 218 guests with an elegant, appetizing meal. The choir girls acted as assisting hostesses. The Harmony String Sextet furnished the music. L. M. Mader acted as toastmaster.
The entertainment of the evening was the vaudeville minstrel troupe, an all star cast, the like of which is seldom seen in local entertainment and they staged some stunts that for originality had professionals beaten.
Carl Seitz, Fulton Cryder, John Walters and George Himrod were the minstrels. J. D. Hummel read George Washington's eulogy, which was new and original. George Griffith recited an original poem entitled "Flowers to the Living." For some reason George omitted the "O" in flowers. It should have gone like this:
O is for O'Connor,
In other words "Joe."
He'd make some "sweet mamma"
A mighty fine beau.
Edward Sensenbrenner closed the evening's fun by giving a Ground Hog's Bulletin. It was the hit of the entertainment. Mr. Sensenbrenner knew his audience.
The next meeting will be held March 6 and a debate will be given. The subject to be debated will be "Resolved; that the stingy man is a greater menace to society than the spendthrift."

Under the direction of Mrs. Bill, of Chillicothe, a series of six one-act English Romantic plays were presented Thursday evening. These plays depicted historic episodes in the lives of English notables.
They were all given in costume and appealed to everyone, young and old. All who witnessed these performances were highly pleased and it was agreed they were far superior to the average local talent.
These plays contained very little action and depended entirely upon their character portrayal which was most artistically done.
The plays were interspersed with selections by old songs by Mrs. Heiskell and Mrs. Howard Moore, accompanied by Mrs. Bentley.
To Mrs. Bill and her cast should be given a hearty thanks—for they all gave their services.
The entertainment was well attended and the proceeds go to the Ladies' guild.

GAY SESSION

Lutheran Brotherhood Staged a Good Vaudeville Thursday Evening.
The Lutheran Brotherhood held a gay session Thursday evening in the social rooms of the church, but the boys had to be on their good behavior as they were host to the ladies.

Frank Mason catered to the wants of 218 guests with an elegant, appetizing meal. The choir girls acted as assisting hostesses. The Harmony String Sextet furnished the music. L. M. Mader acted as toastmaster. The entertainment of the evening was the vaudeville minstrel troupe, an all star cast, the like of which is seldom seen in local entertainment and they staged some stunts that for originality had professionals beaten.

Carl Seitz, Fulton Cryder, John Walters and George Himrod were the minstrels. J. D. Hummel read George Washington's eulogy, which was new and original. George Griffith recited an original poem entitled "Flowers to the Living." For some reason George omitted the "O" in flowers. It should have gone like this:
O is for O'Connor,
In other words "Joe."

He'd make some "sweet mamma" A mighty fine beau.

Edward Sensenbrenner closed the evening's fun by giving a Ground Hog's Bulletin. It was the hit of the entertainment. Mr. Sensenbrenner knew his audience.

The next meeting will be held March 6 and a debate will be given. The subject to be debated will be "Resolved; that the stingy man is a greater menace to society than the spendthrift."

PERSONALS

Concealed in Earth's Bosom.
The earth conceals many wonderful objects, both natural and man-made, that are being discovered from time to time. Remains of prehistoric animals and plants, skeletons and mummies, coins and jewelry, statues, old records, aboriginal implements and toys, even whole buried cities have been found from time to time. Mammoths have been unearthed whole in frozen Siberia. Their bones or those of their relatives, the mastodons, have been dug out in Alaska, in New York state not far from the Hudson river, and in New England.

By a King's Decree.
Up to 1785 handkerchiefs were of every conceivable size and shape. Then one evening Queen Marie Antoinette, in a fit of passion or indignation at Versailles, said that all handkerchiefs should be uniform if they were to indicate good taste. The result was that Louis XVI issued a decree early in 1785 that all pocket handkerchiefs should have right-angle edges. So right angle they are and have been ever since.—The American Embroiderer.

WANTED.

Young man between the age of 25 to 35 with \$2,500 to buy half interest in a good paying business; must be a hustler with good reference and willing to work, experience not necessary, firm established in Circleville for the last seven years and has showed a steady increase every year. For appointment answer in writing within the next three days. Address, Drawer C, Circleville, Ohio. 21feb23.

If you buy a new spring Hat get a Stetson. That's the Hat. Caddy Miller's Hat Shop. 21feb23w1.

REBUILT TRACTORS AND TRUCK.

At this season of the year we are able to find time to rebuild a few tractors and cars. Rebuilding means a complete inspection and replacement of worn parts, not merely refinishing the outside to look like something it is not.

At this time we have a ton truck chassis with new cord rear tires, rear axle completely overhauled and a new motor assembly. We also have a tractor that we have rebuilt and painted on which the purchaser can be assured of uninterrupted service at about half the price of a new tractor. We also have another ton truck in good shape with body and cab that has not been rebuilt, its condition being so good that an overhaul was not necessary that we can sell at \$150.

We have other tractors traded for that will be going thru our shop from time to time. It is our aim to give the purchasers of used cars and tractors such good value that they will continue to be our customers when they get in the market for new equipment. R. L. BREHMER. 21feb23w1.

Moon and the Weather.
Modern science is unable to find any evidence that the moon affects the weather to any appreciable extent, and unable to conceive any reason why it should. The belief in "dry" and "wet" moons, indicated by the position of the lunar crescent in the evening sky, and a host of other notions associating the moon with the weather are merely idle superstitions. Moonlight is sometimes said to be conducive to frost; the fact is that the moonlight nights are also clear nights, and it is the absence of clouds, not the presence of the moon, that favors the occurrence of frosts by permitting a rapid loss of heat from the earth.

Removing Tea Stains.
The specks of china teapots become very much discolored in time. A wing feather of a chicken or turkey makes a good brush to remove them. When well soaped and drawn in and out of the spout it cleans it nicely.

Mammoths have been unearthed whole in frozen Siberia. Their bones or those of their relatives, the mastodons, have been dug out in Alaska, in New York state not far from the Hudson river, and in New England.

By a King's Decree.
Up to 1785 handkerchiefs were of every conceivable size and shape. Then one evening Queen Marie Antoinette, in a fit of passion or indignation at Versailles, said that all handkerchiefs should be uniform if they were to indicate good taste. The result was that Louis XVI issued a decree early in 1785 that all pocket handkerchiefs should have right-angle edges. So right angle they are and have been ever since.—The American Embroiderer.

WANTED.

Young man between the age of 25 to 35 with \$2,500 to buy half interest in a good paying business; must be a hustler with good reference and willing to work, experience not necessary, firm established in Circleville for the last seven years and has showed a steady increase every year. For appointment answer in writing within the next three days. Address, Drawer C, Circleville, Ohio. 21feb23.

If you buy a new spring Hat get a Stetson. That's the Hat. Caddy Miller's Hat Shop. 21feb23w1.

REBUILT TRACTORS AND TRUCK.

At this season of the year we are able to find time to rebuild a few tractors and cars. Rebuilding means a complete inspection and replacement of worn parts, not merely refinishing the outside to look like something it is not.

At this time we have a ton truck chassis with new cord rear tires, rear axle completely overhauled and a new motor assembly. We also have a tractor that we have rebuilt and painted on which the purchaser can be assured of uninterrupted service at about half the price of a new tractor. We also have another ton truck in good shape with body and cab that has not been rebuilt, its condition being so good that an overhaul was not necessary that we can sell at \$150.

We have other tractors traded for that will be going thru our shop from time to time. It is our aim to give the purchasers of used cars and tractors such good value that they will continue to be our customers when they get in the market for new equipment. R. L. BREHMER. 21feb23w1.

Moon and the Weather.

Modern science is unable to find any evidence that the moon affects the weather to any appreciable extent, and unable to conceive any reason why it should. The belief in "dry" and "wet" moons, indicated by the position of the lunar crescent in the evening sky, and a host of other notions associating the moon with the weather are merely idle superstitions. Moonlight is sometimes said to be conducive to frost; the fact is that the moonlight nights are also clear nights, and it is the absence of clouds, not the presence of the moon, that favors the occurrence of frosts by permitting a rapid loss of heat from the earth.

Removing Tea Stains.

The spouts of china teapots become very much discolored in time. A wing feather of a chicken or turkey makes a good brush to remove them. When well soaped and drawn in and out of the spout it cleans it nicely.

Knows His Business.

"My dear," said Mrs. Plancher, "if you have neurasthenia, why don't you go to my doctor? He is the most charming man, and the first thing he asks is, 'What ailment would you like to have?'"

BREAKFAST SETS

Tone up your kitchen, or breakfast room, by adding a set such as pictured above. Decorate it yourself to suit your own personal taste, and the color scheme of your room.

Why pay a high price for a factory decorated set, decorated to suit someone else's taste when you can purchase a set of us in the unfinished wood for much less than the decorated sets? You'll get a lot of fun and enjoyment in doing the work yourself.

We furnish you with books of instructions and stencil plate with each set. The finishing material may be secured from any paint store in this city.

Qualities That Count.
The highway of life may be rough and full of obstructions; one may be weary of the heat and the dust; but the courage that comes of an honest heart and a clear conscience will find for the wayfarer green arbors of rest and cooling springs whereat to quench his thirst.—Georgia May Cunningham.

Nature's Wise Supervision.
The part important played by the weather as a means of preventing the too rapid development of the plant life of the world can be realized only when we consider the vast number of seeds produced. If conditions of the atmosphere favored a more even temperature all over the earth, as was probably the condition in the early history of the planet, there would be fewer varieties of plant life, because the more rapidly producing plants would crowd out the others.

Why Dog's Nose is Gold.
Tradition gives a droll explanation of the ever-chilly nose of the canine: Noah had some anxious and annoying moments when he was trying to coax the animals into the ark. They ran hither and thither and gave him no end of bother until he had a dog chase them, making them go where they belonged. Attending strictly to his duty and not giving up until the last pig and hyena were safely inside the ark, the dog himself was the last to get aboard. So he was obliged to squeeze himself in with his nose in the water during the whole of the voyage, an adventure that has made the noses of his descendants cold and wet forevermore.

How Bridal Veil Originated.
The bridal veil is said to have originated in the ancient custom of performing the marriage ceremony under a square piece of cloth, held over the bridal couple to conceal the blushes of the bride. At the marriage of a widow it was not used.

Pigmy Race.
The natives of the Andaman Islands, Bay of Bengal, average three feet eleven inches in height and weigh under seventy pounds.

How Will You

You Raise Chicks?

All the big and little breeders all over the country use the Standard Colony Brooder. Will you?
The "Standard" is the most practical and successful coal-burning brooder ever made. Broods 100 chicks or 1000 and at a guaranteed cost of less than 6 cents a day. We know this.

STANDARD COLONY BROODER

DEMOCRATS MEET

I. F. Snyder for Central Committeeman—
T. D. Krinn, Alternate.

The first Democratic district meeting after the announcement of Governor James M. Cox of his willingness to be the standard bearer of the party in the presidential campaign was our own, the Eleventh.

The gathering went on record as endorsing M. A. Daugherty, Lancaster and Garrett Claypool, Chillicothe, to be Cox delegates. Alternates endorsed were T. D. Krinn, Circleville and Rollin Bright, Logan, and presidential elector, E. C. Rutler, Lancaster. State Central Committeeman Irvin F. Snyder, Circleville, was endorsed for reelection. Congressman M. G. Underwood, New Lexington, was endorsed for reelection, and W. W. Durbin was endorsed for National committeeman.

The indorsement of Durbin over George White, Marietta, present national committeeman, is regarded as especially significant.

The letter of former Governor Cox to former Governor Campbell, indicating his willingness to permit his name to be entered for the Democratic nomination, was brief and contained no additional outlines of policy. It said:

"I have your letter in which you request consent of use of my name in Democratic primaries in Ohio.

"You are well aware that I have had no inclination to enter into any contest for delegates anywhere. If, however, it is the belief of the Democracy of the state that the principles for which I stand can be promoted by your suggestion, then I most happily acquiesce."

FREIGHT WRECK

Northbound N. & W. Train Loaded With Coke Derailed at Duval.

One of the worst wrecks on the Norfolk & Western railroad that has happened in years occurred this morning near Duval. A northbound freight train loaded with coke was derailed. The engine and thirteen cars of coal ran thru a frog. The train buckled when the air pipes parted and cars were piled up indiscriminately across the double tracks completely blocking traffic on the road for hours.

The southbound passenger train was routed from Columbus to Washington C. H., and thence to Chillicothe.

FIJI ISLES WANT TO JOIN CANADA

Cannibal Islands May Become Dominion's Hawaii.

Fiji wants Canada; will Canada have Fiji? That will be the question before the foreign office at Ottawa if the movement on the famous cannibal islands to join Canada as Hawaii joined the United States develops to its logical end.

"Terrors of Fiji's fierce savages, a name to chasten children, have given way before the nameless dreamy charm which now wraps the islands of the South Pacific," a bulletin from the Washington headquarters of the National Geographic society says, and continues:

Cannibalism Only a Memory.

"Though old men still live who confess knowledge of the taste of cooked human flesh, they, like their sons and daughters, have become good-abiding Christians. Today their tempers are as equable as the climate of this Twentieth-century Eden.

The Fiji group is 600 miles from Samoa. It proudly claims the world's unique self-regulating climate. A thermostat on a modern heating plant could do no more. When it is hot the corrective comes automatically. Heat brings coolness from the mountains. Dryness brings rain. Stillness brings the breeze, a Fiji enthusiast avers. Protecting nature has even gone so far as to build coral-dikes against angry waves almost completely around the main island, Viti Levu. Extremes of temperature are 59 degrees and 94 degrees.

"But every Eden has its serpent, which, in Fiji's existence, takes the form of a hurricane. These disturbances are known as 'blows.'

Disciples of Rip Van Winkle.

"Of the three main racial groups of the population, numbering 157,293, the native Fijians are still dominant, totaling 84,475; but their predominance is fading fast. In 1921 there were 60,634 East Indians and 3,878 Europeans. Natives of India were imported for labor because the Fijians themselves are too ardent disciples of Rip Van Winkle; and the Indians have multiplied rapidly. With happy resignation the Fiji natives believe that the world is made for leisure and not for work and worry. The story told by birth and death statistics, however, is very similar to our American Indians' position for many years: Fiji birth rate, 31.96, death rate, 27.61; Indians (from India) birth rate, 38.00, death rate, 7.5.

"Although Fijians, less than forty years ago, killed, cooked and ate two men to celebrate the establishment of a new school, this South Sea Eden is tamed now. So easily is law maintained that criminals can be seen sobbing in the doorway of Suva's jail because they are shut out! As the hour of six approaches men will come running from all points of the town to gain the jail, with its food and bed, before the doors are closed for the night, leaving them, figuratively, out in the cold.

Helped by Panama Canal.

"Together the islands make up an area almost equal in size to the state of Massachusetts. Viti Levu, the largest, is mountainous, some peaks rising to 4,000 feet. Levu, capital and one of two towns in the group, is on the south side of Viti Levu. To this small town have lately come the reverberations of a world event which bids fair to put Fiji on the map commercially. This was the opening of the Panama canal. Before this event Fiji was as far off the world trade routes as Robinson Crusoe's isle. But now it is on the traveled path between England and her important possessions, Australia and New Zealand.

"Ships having given Fiji a reason for commercial existence, the islands have striven gallantly to produce sugar cane, coffee, copra, cotton, rubber and cattle. The odds are against Fiji in two respects; native philosophy insists that life is made for fun and frolic, and the warm tropics conspire to produce pests as generously as plants. In the tropics, it is said, there is no ointment without its fly; sugar cane has its labor shortage, the banana has its borer, coffee its leaf disease, cotton the capricious American market, and coconuts the hurricane. In spite of these obstacles Fiji's exports rose from \$6,000,000 in 1919 to nearly \$12,000,000 in 1921.

Weaned From Australia.

"Every man-made world development seems to have its commercial Ethiopian in the woodpile. Back of Fiji's inclination for Canada is the fact that these South Sea Islands are developing a profitable trade with the Maple-leaf Dominion. On the face of things it would seem that Fiji might be better attached to New Zealand or Australia, its neighbors, but laws passed by these respective governments designed to monopolize Fiji trade have alienated the natural affections of the island's residents.

"Native Fijians are a blending of the Polynesians, typically represented by the stalwart Hawaiians, and the kinky-haired Malay voyagers. They are a tall, magnificent-built people of a color between coffee and bronze, with stiff, brush-like hair, trained into a high pompadour. Music is the soul of the people. They are often heard singing in their village far into the night. Beauty of face and movement is more the rule than the exception, and friendliness to strangers is carried almost to an excess."

DIED IN HOSPITAL

Father of John K. Graham Passed Away at M. Carmel.

George Graham, aged 52, of Adams Mills, Muskingum county, died Wednesday evening at eight o'clock at Mt. Carmel hospital, of complications after three weeks of intense suffering. CONFIDENCE

The most beautiful of all human relationships are based on CONFIDENCE. Love is based on confidence, friendship is based on confidence, happy marriages are based on confidence; and so, confidence is the highest aim a business institution can achieve, because it introduces into the processes of buying and selling, something of the unselfish quality of those sacred human relationships that are untouched and uncontaminated by money. This store never wants to be guilty of such bad taste as to claim perfection, but it makes no secret of its ambition to foster and deserve at all times the confidence of its customers.

There is no higher success than TO BE BELIEVED IN!

DEMOCRATS MEET

L. F. Snyder for Central Committeeman—
T. D. Krinn, Alternate.

The first Democratic district meeting after the announcement of Governor James M. Cox of his willingness to be the standard bearer of the party in the presidential campaign was our own, the Eleventh.

The gathering went on record as endorsing M. A. Daugherty, Lancaster and Garrett Claypool, Chillicothe, to be Cox delegates. Alternates endorsed were T. D. Krinn, Circleville and Rollin Bright, Logan, and presidential elector, E. C. Rutter, Lancaster. State Central Committeeman Irvin F. Snyder, Circleville, was endorsed for reelection. Congressman M. G. Underwood, New Lexington, was endorsed for reelection, and W. W. Durbin was endorsed for National Committeeman.

The endorsement of Durbin over George White, Marietta, present national committeeman, is regarded as especially significant.

The letter of former Governor Cox to former Governor Campbell, indicating his willingness to permit his name to be entered for the Democratic nomination, was brief and contained no additional outlines of policy. It said:

"I have your letter in which you request consent of use of my name in Democratic primaries in Ohio.

"You are well aware that I have had no inclination to enter into any contest for delegates anywhere. If, however, it is the belief of the Democracy of the state that the principles for which I stand can be promoted by your suggestion, then I most happily acquiesce."

FREIGHT WRECK

Northbound N. & W. Train Loaded With
Coke Derailed at Duval.

One of the worst wrecks on the Norfolk & Western railroad that has happened in years occurred this morning near Duval. A northbound freight train loaded with coke was derailed. The engine and thirteen cars of coal ran thru a frog. The train buckled when the air pipes parted and cars were piled up indiscriminately across the double tracks completely blocking traffic on the road for hours.

The southbound passenger train was routed from Columbus to Washington C. H., and thence to Chillicothe.

ELECTED PRESIDENT.

Harry A. Lawson, until recently the manager of The American Hominy company Mills at Shelbyville, Indiana, and previous to that a member of the grain firm of Richards & Lawson, grain dealers, has been selected as president of the Security Trust & Savings company of that city. The appointment becomes effective March first. Mr. Lawson succeeds Harry M. Moberly.
